

SM-8001 WATERPROOF PLASTIC RFID WRISTBAND

SM-8001 Plastic RFID bracelets are waterproof, reusable and available with a passive 125 KHz, 13.56 MHz or UHF chip. These waterproof plastic RFID wristbands have a read range of 15 to 30 cm depending on the type of chip and reader used.

Applications: These waterproof RFID bracelets wear comfortably for use at pools, waterparks, spas, gyms, lockers, golf and tennis clubs and for POS applications at bars and restaurants. Well suited for stored value and credit applications as needed at resorts, hotels and private clubs.

Construction: SM-8001 waterproof plastic RFID bracelets are made of TPU and ABS plastic with a flexible strap that makes it easy to put on and take off the wrist.

SYNOMETRIX offers a standard 1 year repair or replace warranty from date of shipping on products found to have a defect that results from manufacturing.
